

Alexander Kech

Cryptoasset Custody & Regulation

February 2021

Personal Overview

Alexandre Kech has 20+ years of experience in the banking and capital market industry. From global custody and asset servicing at the Bank of New York Mellon to data standardisation and Head of Securities & FX APAC at SWIFT, Alex has developed strong post-trade industry leadership experience, which has extended in recent years to digital assets and blockchain.

Alexandre transitioned to a new challenge in November 2018 when he joined Onchain Custodian as the CEO of the company, along with Da Hongfei (Chair of the Board), El Lee (COO) and Raymond Cheong (CSO). Onchain Custodian is an institutional digital asset custody and open finance service in Singapore. The solution has been live since April 2019.

Industry leadership role and representation

Convenor for the International Standards Organisation (ISO) technical committee on ISO 24165 Digital Token Identifier (DTI).

Co-Chair of Global Digital Finance (GDF.io) Custody Working Group.

Expert in the Asia-Pacific Financial Forum (APFF)

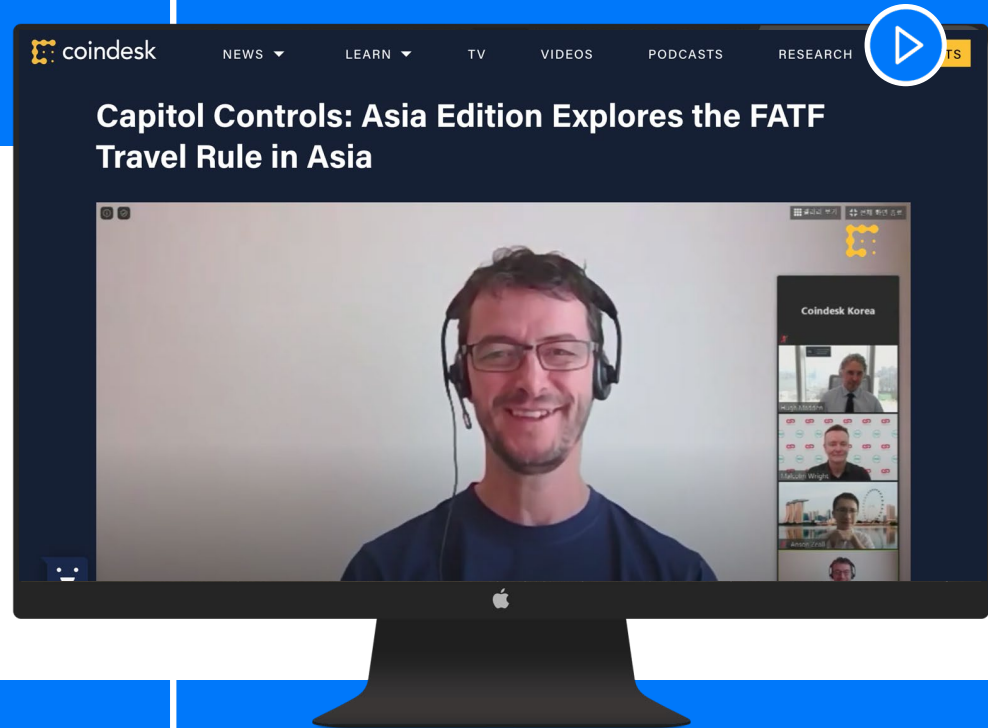

Member of Joint Working Group for interVASP Messaging Standards.

Subject Matter Expertise

Alexandre can present on any of the following topics. Should you wish to pose any other topics, please contact us for an initial call to discuss the opportunity.

- The rise of Digital Asset and Blockchain
- Digital Asset Custody
- FATF Travel Rule, crypto compliance in general
- Cryptoasset Industry Standards
- Transitioning from SWIFT to a startup

“

Alexandre brings unique experience from the traditional world combined with hands on crypto custody and institutional clients at the highest levels.

Media Mentions

"Blockchain and cryptocurrency are born from philosophical ideals we all aspire to. The industry has and will continue to disrupt the status quo."

Building Global Standards for Digital Asset Custody with Onchain Custodian [August 2019]

"Issuers will trust BSI-standards technology, with greater confidence in their technology provider or token distributor, [and] this will drive adoption of security token offering (STO) fundraising activity."

UK's National Standards Setting Organization, BSI, Releases Security Token Specification, Blockchain Industry's First Cross-Chain Standards [January 2021]

“

Alex is a leading influencer in setting standards in GDF. The GDF membership has greatly benefited from his insight and expertise and we are grateful for his exemplary contribution and leadership in our global community.
